

A SHORT PIECE FOR A SLIM, GOVERNOR

Don't get me wrong; I do not dislike our new Governor. I am just tired of the same ole same thing that goes on in Government all the time. Like "Where is Liddieville's grant for our MAIN STREET. We don't even have a main street just a pile of mess left over from an illegally closed school. The school Board wont clean up the mess and the police Jury wont name a Main Street.

But after all following the law in this state requires passing "NEW ETHICS LAWS". Pay no attention to the raised hand to enforce the laws of the State and constitution. The constitution is of course as written earlier is based on the Jewish-Christian Ethics, but Mr. Ellington and our newly elected Governor and other elected state officials all promised with hand raised to carry out their duly elected duties. You must know our taxes help pay for the Basketball and Football teams in New Orleans and places for them to play. I am Helping Mr. Benson with His Car Dealerships but I have to pay full price for my cars. And I don't even like the showman ship instead of basketball and football the pro's play. Liddieville does not have a Main Street to get funds for but if we have a clean up the illegally closed school festival can we have a few dollars from the billions you folks are throwing around?

I guess we will have to do what ever body else does, make like Bobby J is the greatest thing since ole Huey P. and He is sure to be elected Governor one day. Pat him on the back folks.
