

HUH WHAT AND SOMETHING ELSE - PART TWO

I thought about the race relation question I raised in part one about the election and it led to wonderment. Isn't each of us a little bit prejudice about something or some things around us? Prejudice about the color of a person's skin is simply being prejudiced toward that person. When I was young boy in this southern community, there were people with mixed blood which led to a persons color being about the color of our President. The old folks called them "Darkies" to separate them from the Negroes. Darkies thought they were better than Negroes and would get mad if you referred to them as Negroes. White folks didn't care one way or the other.

I wonder why Congressmen of both houses seemed not to think that every day people or dumb. I can tell when some of them or interviewed on TV they are not very bright. I could put some just everyday people up against them and they would sure as cat look some kind of stupid and or dumb about the workings about them. Of course if the voters in the dumb fellows district never check up in any way he will get reelected and keep stealing until they get rich. I wonder why their voters don't get it when their salary is about \$150,00 a year yet in just a few years they are worth a couple of million.? Makes a body wonders don't it?

I wonder why Mr. Obama said in His campaign speeches that this country would be transformed five days after he was elected. Doesn't He know this country was born and raised on individualism? The same method by which Private Schools teach, the "student centered", method? The big Text Book companies might be cooperating with the "test Centered" public school ways to teach but most teachers still use the "student centered" method to work with those that have trouble passing the test. Sylvan Schools method is so successful because it teaches using the "Student Centered" method.

BOY THAT GUNPOWDER OR DYNAMITE AWARD PRESIDENT OBAMA GOT IS SOMETHING THAT IS AN EXPLOSIVE PIECE OF GOLD. HE GOT THAT THING AFTER THE DYNAMITE COMMITTEE HAD ONLY MET JUST **THIRTEEN DAYS** AFTER OBAMA TOOK OFFICE. Of course it has grown into a purely political award and means nothing concerning the original intent of the award.

Enough said about that. Let us move on to something that none of the Cable news or so called National Media has even mentioned. What kind of government do we have vs. what kind did the founding Papa's had in mind for us? There were two groups wanting to have their type of National government. Well, their was some that wanted to have a King like in England but the old folks were trying to get away from Kings and stuff. One

group wanted a strong form of Federal Government vs. a strong individual States type. Before they could even decide they had to have each state delegate come to the meeting to decide if they were even going to break away. Lo and behold everything was all tied up and one State Delegate had not even showed up. I know all about what happened but I am not going to tell the reader. If you wish to know look it up in a History Book. If you can even find it.

Today a group of Czars (about twenty or so) or working through Obama to (fundamentally change) this country. He doesn't have sense enough to change anything. He doesn't even know what kind of government we have, He has never had to work for anything He has, and to make matters worse He has never managed more than the number of people on His office staff when he bought a seat in the U.S. Senate. Acorn, "remember me" they sang.

Well enough for part two. Part three will come up after the following advertisement. Read the Liddieville page and Cuz Horne.com, Just "Google" both.
